

Carl Krueger

2015-16 Recipient

*John William Jackson Fund Engineering
Scholarship (In Memory of Oscar Paulson)*

Hometown Star, Idaho

Class Senior

Major Mechanical Engineering

PLANS AFTER GRADUATION

As of now, my plans after graduation are wide open. My main goal is to gain employment at a local engineering firm, however anywhere in the Pacific Northwest would be preferable. If an opportunity doesn't immediately present itself, I will consider graduate school.

INVOLVEMENTS

Last year as a Junior, I was able to participate in the NNU RockSat team in the Engineering Department. I have gotten this opportunity again this year and continue to work with a group of fellow students. I also enjoy participating in the NNU events like TWIRP and others.

HOW NNU HAS MADE A DIFFERENCE IN MY LIFE

NNU has made a significant difference in my life. For one year, I attended Boise State University but I missed the community here at NNU a lot. As a result, I made the decision to finish my undergraduate education at NNU. It has helped me grow both intellectually and spiritually, and continues to teach me new things about myself every day.

HOW THIS SCHOLARSHIP HAS MADE A DIFFERENCE TO ME

This scholarship has made it possible for me to continue education at NNU. I recently got married and the extra money has significantly made our lives less difficult. Without it, I may not have been able to come back to NNU and would have finished my education at Boise State University.
